The School Board provides a computer system, including the internet, to promote educational excellence by facilitating learning, resource sharing, innovation and communication. The term computer system includes, but is not limited to, hardware, software, data, communication lines and devices, terminals, display devices, printers, CD, DVD and other media devices, tape or flash drives, storage devices, servers, mainframe and personal computers, tablets, laptops, telephones, cameras, projectors, interactive whiteboards/panels, audio-visual equipment, multimedia devices, workstations, remote network access, cloud services, the internet and other electronic services and internal or external networks. This includes any device that may be connected to or used to connect to the school division's network or electronically stored division material.

All use of the division's computer system must be (1) in support of education and/or research, or (2) for legitimate division business. Use of the computer system is a privilege, not a right. Inappropriate use may result in cancellation of those privileges, disciplinary action, and/or legal action. Any communication or material generated using the computer system, including electronic mail, social media posts, instant or text messages, tweets, generative AI outputs and other files, including communications and materials deleted from a user's account, may be monitored, read, and/or archived by division staff.

This policy applies to all users of the division's computer system. By using or accessing the computer system, the user agrees to abide by this policy and the Technology Use Guidelines established by the superintendent.

The superintendent is responsible for establishing Technology Use Guidelines, containing the appropriate uses, ethics and protocols for use of the computer system. The Superintendent is also responsible for reviewing and updating, as necessary the Guidelines at least every two years. It is the user's responsibility to know and follow this policy and the Technology Use Guidelines.

The Guidelines include:

1. a prohibition against use of the division's computer equipment and communications services for sending, receiving, viewing or downloading illegal material via the internet;
2. provisions, including the selection and operation of a technology protection measure for the division's computers having internet access to filter or block internet access through such computers, that seek to prevent access to: child pornography as set out in Va. Code § 18.2-374.1:1 or as defined in 18 U.S.C. § 2256; obscenity as defined by Va. Code § 18.2-372 or 18 U.S.C. § 1460; and material that the school division deems to be harmful to juveniles as defined in Va. Code § 18.2-390, material that is harmful to minors as defined in 47 U.S.C. § 254(h)(7)(G), and material that is otherwise inappropriate for minors;
3. provisions establishing that the technology protection measure is enforced during any use of the division's computers;
4. provisions establishing that all usage of the computer system may be monitored;
5. provisions designed to educate students and employees about appropriate online behavior, including interacting with students and other individuals on social networking websites, blogs, in chat rooms, and cyberbullying awareness and response;
6. provisions designed to prevent unauthorized online access by minors, including "hacking" and other unlawful online activities;
7. provisions requiring every user to protect the security of information necessary to access the computer system, such as usernames and passwords, and prohibiting the sharing of passwords;
8. provisions prohibiting the unauthorized disclosure, use, and dissemination of photographs and/or personal information of or regarding minors; and
9. a component of internet safety for students that is integrated in the division's instructional program.

Specific Guidelines Pertaining to Generative AI

- The use of generative AI technologies (e.g., large language models, text-to-image generators, and similar applications) is permitted under the following conditions:
- 1. AI tools must be used in alignment with the division's educational or administrative mission and objectives.
 - 2. Outputs generated by AI tools must adhere to all ethical, legal, and content standards outlined in this policy.
 - 3. Generative AI must not be used to produce harmful, obscene, plagiarized, or otherwise inappropriate material as defined by the division.
 - 4. Students and employees must receive training on the ethical use of generative AI, including recognizing and preventing misinformation or inappropriate bias in AI-generated outputs.
 - 5. Sensitive or personal information must not be entered into generative AI systems unless the tool is specifically authorized by the division and compliant with privacy regulations.
 - 6. The use of generative AI to automate decision-making must be approved by the superintendent or their designee and must include safeguards against unintended consequences.

Use of the school division's computer system must be consistent with the educational or instructional mission or administrative function of the division as well as the varied instructional needs, learning styles, abilities and developmental levels of students.

The division's computer system is not a public forum.

Users of the division's computer system have no expectation of privacy for use of the division's resources or electronic devices including non-division owned devices while connected to division networks or computer resources.

Software and/or services may not be installed or downloaded on the division's computer system without the prior approval of the superintendent or superintendent's designee.

No employee or agent of the School Board or person or entity contracting with the School Board may download or use any application, including TikTok or WeChat, or access a website developed by ByteDance Ltd. or Tencent Holdings Ltd. (i) on any device or equipment issued, owned, or leased by the School Board, including mobile phones, desktop computers, laptop computers, tablets, or other devices capable of connecting to the internet.

The failure of any user to follow the terms of the Agreement, this policy or the Technology Use Guidelines may result in loss of computer system privileges, disciplinary action, and/or appropriate legal action. Users of the system, including generative AI tools, agree to indemnify the School Board for any losses, costs, or damages relating to or arising out of any violation of this policy or the Technology Use Guidelines.

The School Board is not responsible for any information that may be lost, damaged or misused through generative AI tools or other system features. Furthermore, the school board will not be School Board is not responsible for any unauthorized charges or fees resulting from access to the computer system.

The School Board reviews and amends, if necessary this policy every two years.
